

TWEPP-24

Topical Workshop on Electronics for Particle Physics Glasgow, United Kingdom, 30 September – 4 October 2024

Deadline for abstracts: 30 April 2024

The workshop covers all aspects of electronic systems, components and instrumentation for particle and astro-particle physics such as: electronics for particle detection, triggering, data-acquisition systems, accelerator and beam instrumentation.

Operational experience in electronic systems and R&D in electronics for LHC, High Luminosity LHC, FAIR, neutrino facilities and other present or future accelerator projects are the major focus of the workshop.
