Searching the Scientific Web:

Scirus
&
The added benefits for the scientific community

Femke Markus

Sr. Product Manager Scirus

18 October 2002, CERN, Geneva

ELSEVIER SCIENCE

Outline Presentation

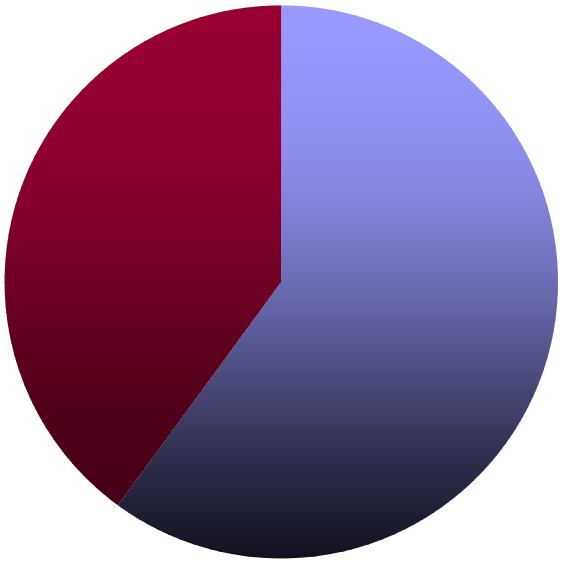
- **Why Scirus**
- **Scirus Value Chain**
- **Added value for ES and scientific community**

Why Scirus

How much of your time do you spend on Web - or proprietary database sources when searching for scientific information

Web Sources

40%



Database Sources

60%

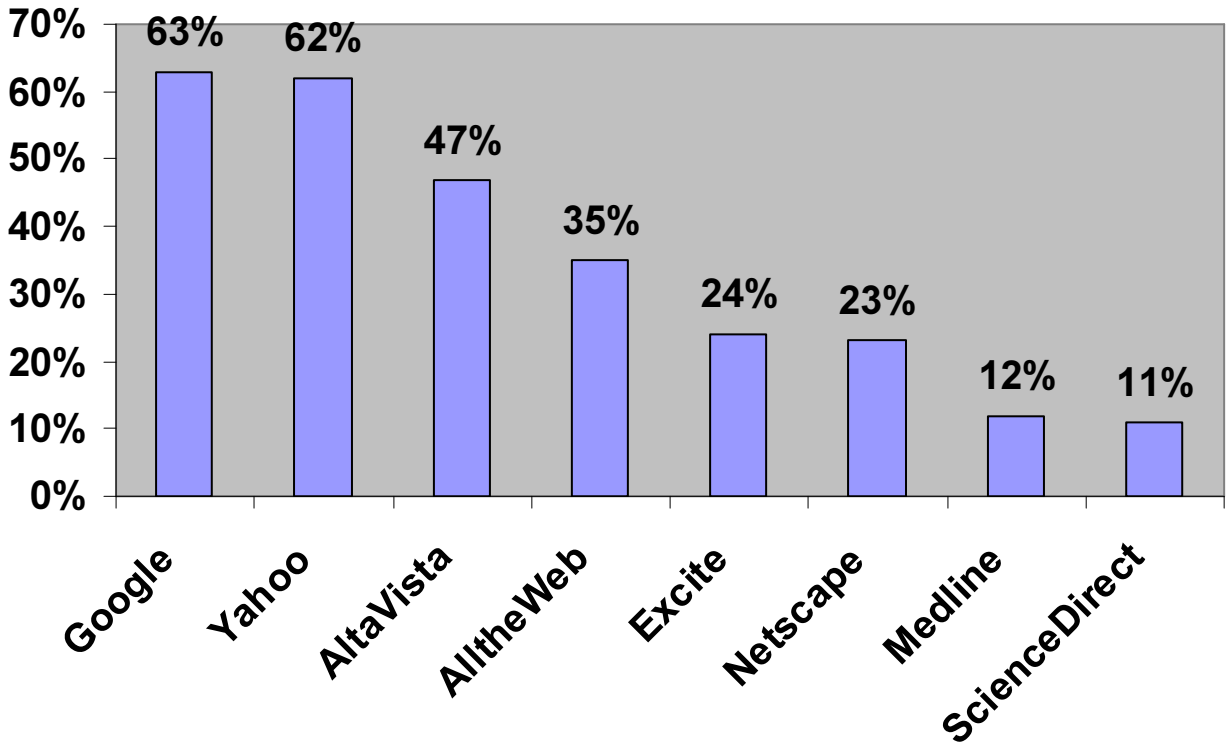
Market Research Elsevier Science (Nov 1999)

scirus
www.scirus.com

ELSEVIER SCIENCE

Why Scirus

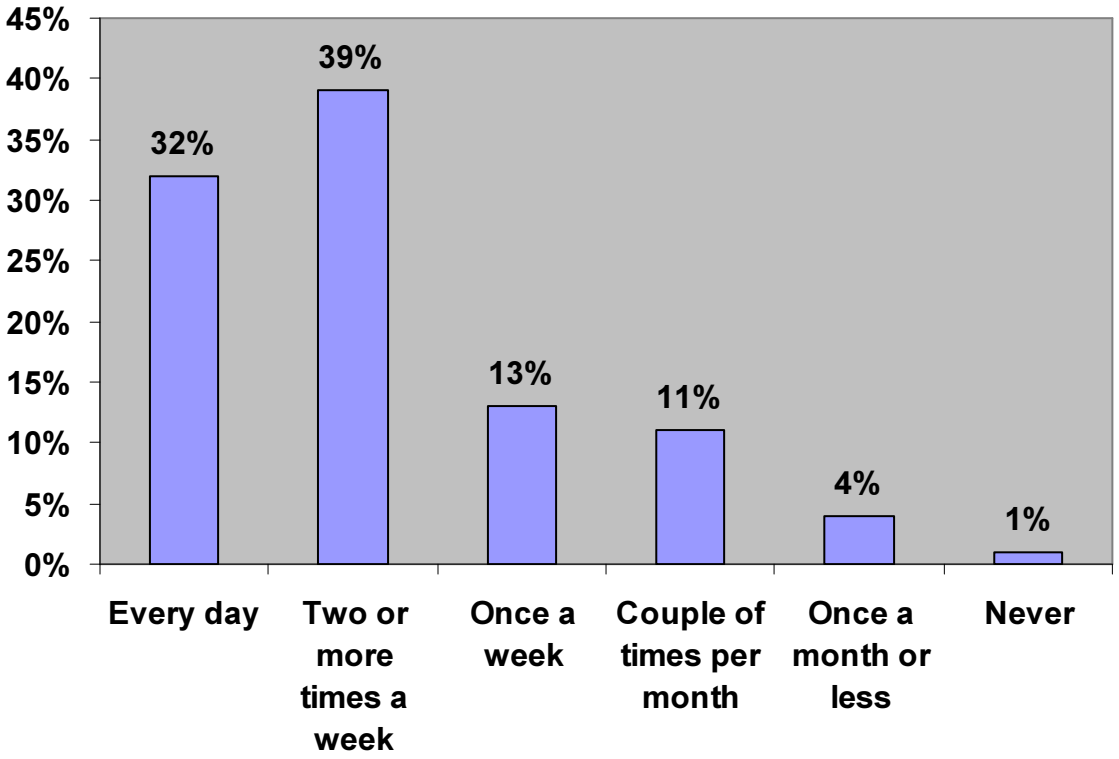
Which of the following search resources do you use to search for work-related searches?



Market Research Elsevier Science / Frank N. Magid Associates N = 464 (May 2002)

Why Scirus

How often, if ever, do you use an Internet search engine to obtain scientific information?



Market Research Elsevier Science / Frank N. Magid Associates N = 464 (May 2002)

scirus
www.scirus.com

ELSEVIER SCIENCE

Why Scirus

- 80 % use Internet Search engines for ‘every’ assignment or ‘most assignments’
- 50% use Library Web portals / Class Website
- 50% said that the information on the Web is not sufficient for their assignments
- 65% said that the Internet does not offer a sufficiently wide range of resources

Source: OCLC White Paper on the Information Habits of College Students (1,050 respondees)

Why Scirus

“Four out of five students turn to mainstream search engines when they have to find information for a research project. These search engines usually miss the most useful resources in the invisible web, on which colleges spend so much money in licensing fees and on which scholars spend so much time in peer review.”

Source: CLIRinghouse, Feb. 2002.

SCIRUS
www.scirus.com

ELSEVIER
SCIENCE

Why Scirus

Develop a search engine that focuses on scientific Web information and also covers proprietary database information:

scirus
www.scirus.com

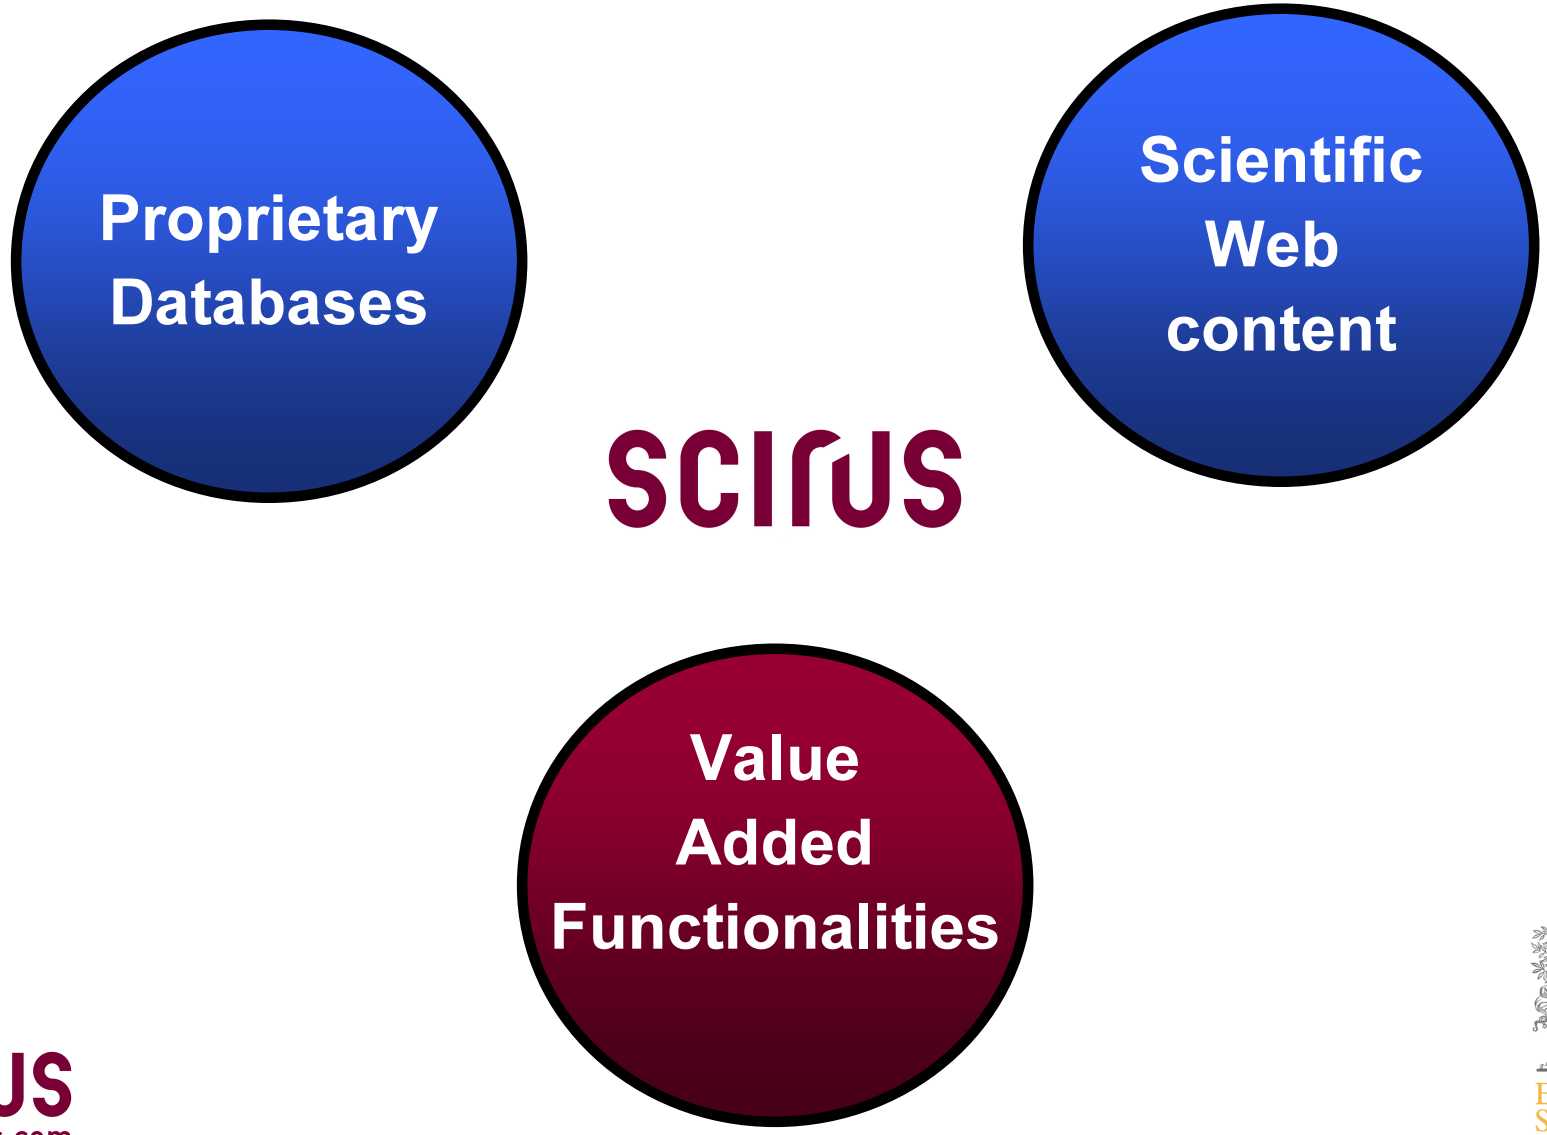
About Scirus

- A free web search engine for scientific information: covering both Web and proprietary information
- Developed by Elsevier Science
- In cooperation with FAST (alltheweb.com)
- Launched in April 2001

SCIRUS
www.scirus.com

ELSEVIER SCIENCE

Scirus Value Chain



SCIRUS
www.scirus.com

ELSEVIER SCIENCE

Content Coverage

Scirus now covers > 120 million pages:

- Scientific Web Sources:
  - 105 million freely accessible Web pages

- Scientific Journal Database Sources:
  - 17 million article records

Content Coverage

Websources (105 million pages):

- 40 million .edu
- 14.5 million .com
- 13 million .org
- 5 million .ac.uk
- 4 million .gov
- 1.7 million.net
- rest: others, like 0.6 million .nl

SCIRUS
www.scirus.com

ELSEVIER SCIENCE

Content Coverage

Proprietary sources:

- Beilstein: 650,000 million abstracts
- BioMed Central: 820 full-text articles
- IDEAL: 260,000 full-text articles
- MEDLINE: 13 million citations
- ScienceDirect: 1.7 million full-text articles
- USPTO: 900,000 patents

SCIRUS
www.scirus.com

ELSEVIER SCIENCE

Content Coverage

Harvested structured data sources :

- E-print ArXiv: 180,000 preprints (Los Alamos)
- Math Preprints: 566
- Chem Preprints: 563
- Cogprints: 1,400
- NASA: 10,310

Scirus Data processing

SCIRUS

Added value of Scirus for Elsevier Science and scientific community

Benefits for Elsevier Science

- Increase awareness of and traffic to our published articles
- Position ES in the emerging search engine market
- Increase ES knowledge on latest technological development
- Added ‘search the scientific Web’ functionality to ES electronic platforms

Welcome!
We are pleased to welcome you to this new web site, earth.elsevier.com.
It has been created to provide you with easy, one-stop access to our complete publishing programme. Our goal is to provide the most comprehensive, accurate, up-to-date information in this area.
We hope you find this web site useful and a valuable addition to your online resources.
Marten Stavenga
Publishing Director,
Elsevier: Earth & Planetary Sciences
