

Agenda - Villars meeting 22-28 September 2004

Sunday, 26 September 2004

Anti-protons - Session 2 (09:00 - 14:00)

time	[id] title	presenter
09:00	[35] ALPHA: Antihydrogen Laser Experiment Roadmap	HANGST, Jeffrey Scott
09:40	[39] Discussion	
09:50	[42] AEGIS - a new experiment on Hbar trapping and cooling	, Gemma Testera
10:20	[41] Measuring antimatter gravity with antihydrogen	, Christian Regenfus
10:30	[43] Discussion	
10:40	COFFEE	
11:00	[44] ELENA: Proposal for an additional decelerator and cooler ring to be installed between the present AD and the low energy antiproton experiments	BELOCHITSKII, Pavel
11:20	[40] Discussion	
11:30	[36] FLAIR	, Eberhard Widmann
11:45	[37] Discussion	
11:55	[38] Conclusions	
12:30	LUNCH
