

Agenda - Villars meeting 22-28 September 2004

Monday, 27 September 2004

Other topics (13:30 - 16:50)

time	[id] title	presenter
13:30	[79] CAST: Possible Future Experimental Searches at CERN in Astroparticle Physics	Prof. ZIOUTAS, Konstantin
14:00	[82] Discussion	
14:10	[85] AD-4 Antiproton Cell Experiment: Future Plans	, Michael Holzscheiter
14:30	[84] Discussion	
14:40	[83] Electromagnetic processes in strong crystalline fields - exploring the Schwinger field	, Ulrik Uggerhoj
15:10	[86] Discussion	
15:20	[80] Lepton Flavor Violation and Dipole Moments in the muon system at high intensity beams	, Marco Incagli
15:40	[81] Discussion	
15:50	[87] Conclusions	
16:30	COFFEE
