

# Agenda - Villars meeting 22-28 September 2004

## Thursday, 23 September 2004

### Neutrinos - Session 1 (14:00 - 19:50)

time	[id] title	presenter
14:00	[107] Phenomenological overview	, Andrea Romanino
15:00	[116] Discussion	
15:15	[117] Experimental overview	, Koichiro Nishikawa
16:15	[118] Discussion	
16:30	COFFEE	
16:50	[119] OPERA	DECLAIS, Yves Rene Andre
17:20	[120] Discussion	
17:30	[115] ICARUS	
18:00	[109] Discussion	
18:10	[110] C2GT: An experiment to measure $q_{13}$ with the CNGS beam off axis and a deep underwater Cherenkov detector in the Gulf of Taranto	DYDAK, Friedrich
18:30	[111] Discussion	
18:35	[112] Propect for future hadron production experiments - HARP Collaboration	PANMAN, Jaap
19:05	[113] Discussion	
19:10	[108] Ideas for a next generation liquid Argen TPC detector for neutrino physics and nucleon decay searches	, Andre Rubbia
19:25	[114] Discussion	
19:30	DINNER
