*All Activity Meeting, CERN  
13 September 2004*

# NA2 Dissemination

**John DYER**  
Activity Leader

EGEE is a project funded by the European Union under contract INFSO-RI-508833

# NA2 Deliverables Complete

- **External Website (M1 M6)**
- **Internal Website (M1 M6) – CERN**
- **Dissemination Plan (strategy) (M3)**
- **Dissemination Report (M6)**
- **Printed PR Material (M6)**

# Hiring Status

- **TERENA has been at Full Strength (3 FTE) since Day 1**
- **Staff**
  - **John DYER, Management and Technical**
  - **Jo BARNETT, External Relations and PR**
  - **Licia FLORIO, Technical**
  - **Carol de GROOT, Conference Organiser**
  - **Jeroen HOUBEN, Webmaster**
  - **Dick VISSER, Assistant Webmaster and Sysadmin**

# Risk Analysis

- **Keeping good Communication between Partners !**
- **Large number of Individuals working in NA2**
  - 80 names
  - 21 organisations
- **Danger of Divergence from EGEE Style**
- **TERENA needs constant feedback from ALL PARTNERS**

# Highest Priorities to M9

- **Finalise Branding & Style**
- **Website full functionality (due M6)**
  - Content development continues to M24
- **Dissemination Material Development**
- **IST2004 coordination**
- **Second EGEE Conference Organisation**

# External EGEE public home page

The screenshot shows the EGEE public home page. The header includes the EGEE logo and the tagline 'Enabling Grids for E-science in Europe'. A navigation menu on the left lists sections like 'ABOUT EGEE', 'GETTING INVOLVED', 'EVENTS', 'EGEE CONFERENCES', 'RELATED EVENTS', 'TRAINING EVENTS', 'PAST EVENTS', 'PRESS CORNER', and 'ADMIN'. The main content area features a 'Welcome to EGEE' section with a description of the project, a search bar, and a 'Hot Events' list. The 'Hot Events' list includes several dates and locations, such as '16 September 2004: Technology Opportunities from CERN: the impact of Big Physics on Industry' in London, and '20 - 23 September: LCG2 Installation / Administration Course' in Karlsruhe, Germany. The page also has a 'Latest News' section at the bottom.

**Welcome to EGEE**

The Enabling Grids for E-science in Europe, or EGEE project as it is more commonly known, is funded by the European Commission and brings together experts from over 27 countries.

The aim of the EGEE project is to build on recent advances in grid technology and develop a service grid infrastructure in Europe which is available to scientist 24 hours-a-day. With funding of over 30 Million Euros, the project is among the largest of its kind.

**How to Join**

### Introduction

EGEE is keen to encourage the expansion of its Grid service to new application areas, disciplines and user groups. There are a number of different ways to get involved in EGEE and your specific area of interest and expertise will determine which area you could join.

### New Users

Individuals who are members of recognised Virtual Organisations (application communities) should explore the online information sources offered by EGEE. A good starting point is to review the [LCG users overview](#) which includes information about how the LCG project inducts new users.

### Applications

The EGEE project is committed to providing an infrastructure for multiple applications from as many disciplines as possible with High Energy Physics and Biomedical being the initial pilot areas

For the biomedical applications group, a web page describing application currently developed on the EGEE infrastructure is available [here](#).

A procedure to guide new applications that want to join biomed activities is available [here](#).

EGAAP, the EGEE Generic Applications Advisory Panel, has been set-up to determine if individual applications should join EGEE and works closely with Networking Activity 4 - Application Identification and Support. To view a presentation about EGAAP, visit [here](#).

EGAAP assesses whether an application is suitable to join the EGEE project by considering the scientific interest of the proposed work and Grid-awareness within this community.

The Management of the project insist that some of your project staff attend an EGEE introductory training course as a minimum prerequisite to considering your application. These courses are offered by NeSC on behalf of the EGEE project and further information can be found by visiting [www.egge.nesc.ac.uk](#).

EGEE > Public > Conferences > 2nd

**EGEE Second Conference**

**22-26 November 2004,  
The Hague, the Netherlands**

The second EGEE conference will be one of the events that will take place in the Netherlands under the banner "[European Leadership in e-Science and Grids](#)" during the six months of the Dutch European presidency.

Other EC Research Infrastructure Grid projects will participate in this large event where project partners will gather to discuss issues and work together.

**Programme**

A [general programme outline](#) can be viewed, a more detailed version will be published shortly.

**Registration**

The online registration page can be found at <https://www.statusplus.nl/secure/europeanleadership/register>.

**Hotels**

Hotels must be booked separately. Please [click here](#) for a list of hotels, contact details and prices.

**Venue**

The conference will be held at Netherlands Congress Centrum (NCC) in The Hague (Den Haag also called 's-Gravenhage). The NCC is situated in the West of The Hague, between the historical centre and Scheveningen which itself is the port area of The Hague. To view more details about The Hague and surrounding area, [click here](#).
