SC2 mode of working (3/3)

It will receive status reports from the PEB, including summaries of the allocation and use of resources.

Based on these reports, the SC2 will provide feedback and guidance to the PEB.

■ SC2 mode of implementing this:

- ◆ The SC2 allocates one meeting per year to **review in-depth** the work and resource allocation of **every LCG area**. (area focus meetings, AFM). At these meetings the experiments are asked to present how they adopt the work of the specific area. The dates are fixed in advance to allow enough preparation time, proposal:

- 26.3. Applications
- 4.6. Grid technology
- 31.8. Grid deployment
- 3.12. Fabric

SC2 proposed schedule

- Meetings: Fridays 13:30-17:00
schedule: quarterly report meetings (QRM) + area focus meetings (AFM)
 - ◆ 6.2.04 QRM
 - ◆ 26.3.04 AFM: Application
 - ◆ 30.4.04 QRM
 - ◆ 4.6.04 AFM: Grid Technology
 - ◆ 30.7.04 QRM
 - ◆ 31.8.04 AFM: Grid Deployment
 - ◆ 29.10.04 QRM
 - ◆ 3.12.04 AFM: Fabric

- At area focus meetings the experiments should present their interaction and progress in connection to the area specific area.

Wrt. LCG progress report:

- We propose to go back to the original schedule for the quarterly report, to cover the actual quarter (forget about - 2-weeks)
- To complete the progress picture for LCG we request that each progress report should cover in addition
 - ◆ From experiments:
 - progress in the experiments adopting LCG products and services,
 - comments on verification milestones + outlook
 - ◆ From RC's:
 - progress in the regional centres deploying LCG (including numbers),
 - usage report and outlook for the next quarter to be coordinated through the GDB chair, this gives the coordination role to the GDB, which it should have

LCG 2003Q4 report

- SC2 deadline for contributions is Feb 13,
 - ◆ report is compiled then and presented to POB on Feb 16

Some initial feedback (incomplete)

- GDA:
 - ◆ changing of milestones required:
 - still talk about LCG-1 (see report p30)
 - cope with delays, adapt meaningless milestones
- GTA:
 - ◆ This part of the project should have a clear leader, we understand that the area leadership went through a transition last quarter, from now on it should have one leader only.
 - ◆ a detailed analysis of the milestones is hard/impossible, some milestones were previously delayed, now they are suddenly 'completed by other activities', but in the tables they appear as not done...
 - ◆ after Q3 we recommended to present a new plan and new milestones taking into account the changes of responsibilities
 - ◆ some milestones lack significance and should be demoted to L3 (somebody hired, wbs developed, wbs approved...)
