

UK Institute of Physics: Particle Physics 2004

Tuesday, 6 April 2004

Parallel II: QCD (11:00 - 12:30)

time	[id] title	presenter
11:00	[14] High t diffractive photoproduction of rho mesons	CARL GWILLIAM
11:15	[15] Heavy Ion Physics at the NA57 CERN Experiment	STEPHEN BULL
11:30	[16] Lambda-based Perturbation Theory for Event Shapes in e+e- Annihilation	MICHAEL DINSDALE
11:45	[17] Infrared Finite Scattering Amplitudes	DARREN FORDE
12:00	[18] Infrared freezing of QCD observables	PAUL BROOKS
12:15	[19] Multi-Jets at HERA	TIM NAMSOO
