

UK Institute of Physics: Particle Physics 2004

Wednesday, 7 April 2004

Parallel IX: Standard Model and Beyond (11:00 - 12:30)

time	[id] title	presenter
11:00	[46] Results from investigations into the CMS physics channels PP->bbH(H->gammagamma)	DANIEL HOLMES
11:15	[47] WW production at CDF	DUSTIN MCGIVERN
11:30	[48] WW scattering studies at a Future Linear Collider	ANDRES OSORIO
11:45	[49] CKM physics from B->Kpi decays at LHCb	ANDY BUCKLEY
12:00	[50] Resonant Leptogenesis	TOM UNDERWOOD
12:15	[51] Search for events with tau-leptons at H1	CHRISTIAN VEELKEN
