

# Les Houches 2005 (SM: EW, QCD and Higgs)

## Thursday, 5 May 2005

### Top quark studies (08:30 - 15:30)

time	[id] title	presenter
08:30	[73] Introduction and aim	J. D'HONDT
08:45	[72] t-tbar cross section calculations	F. MALTONI
09:00	[74] Measurements from t-tbar events at the Tevatron	J. HUSTON
09:15	[75] Measurements from t-tbar events at the LHC	J. D'HONDT
10:15	[76] Overview of single top theory and MC model	L. DUDKO
10:30	[77] Single top physics at the LHC	A. GIAMMANCO
10:45	[78] Jet algorithms and jet reconstruction: lessons from the Tevatron	S. ELLIS
11:00	[79] Search for anomalous coupling in top decay at hadron colliders	S. TSUNO
