

APII Testbed & TEIN

ICFA Workshop Daegu, Korea

May 24, 2005

Byung-Kyu Kim (bkkim@kisdi.re.kr)
APII Cooperation Center
Korea Information Strategy Development Institute (KISDI)

APII&TEIN Evolution

for the Mission & Common Prosperity

```
1995 APII Initiative @APEC TELMIN1 (Seoul)
    APII Testbed Project @APECTEL12 (CJK, jointly) *
1998 APII KR-JP launched (2 Mbps)
1999 APII KR-SG launched (8 Mbps)
2000
          TEIN Initiative endorsed @ASEM3 (Seoul)
2001 APII KR-US (45Mbps)
          TEIN KR-FR launched (2Mbps)
2001
          TEIN quoted as "the basis of a strong partnership between Asia &
2002
  Europe" @ASEM4 (Copenhagen)
2003 APII KR-JP upgraded to 1.2Gbps
2003
          TEIN KR-FR upgraded to 45M
          TEIN2 announced by EU, funding 10M Euro, in response to TEIN
2004.1
  Initiative & Efforts, @HQ of EC
2004.5 APII KR-US upgraded to 1.2Gbps from 155M
2004.8 APII KR-CN launched (2*155Mbps)
         TEIN KR-FR upgraded to 155M
2004.12
```

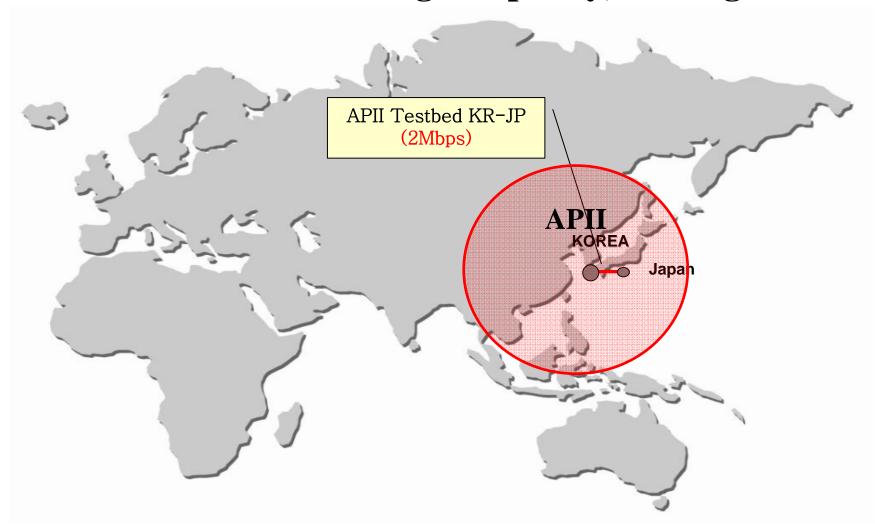

SingAREN 8 M (SG) ■ Backbone: 2.5~40G **GEANT Seoul** 155 M ■ Access: 155M~1G (EU) STARTAR 1.2 G **Suwon** (USA) Daegu Remark Daejun **DWDM ATM Switch** Router **Busan Gigabit Switch** Gwangju ? 1.2 G 40 Gbps 2.5Gbps 155Mbps **JGN** Over 2.5Gbps(planned) (JP)

APII KR-JP Launched (1998) started small Mega Capacity, seeding ...

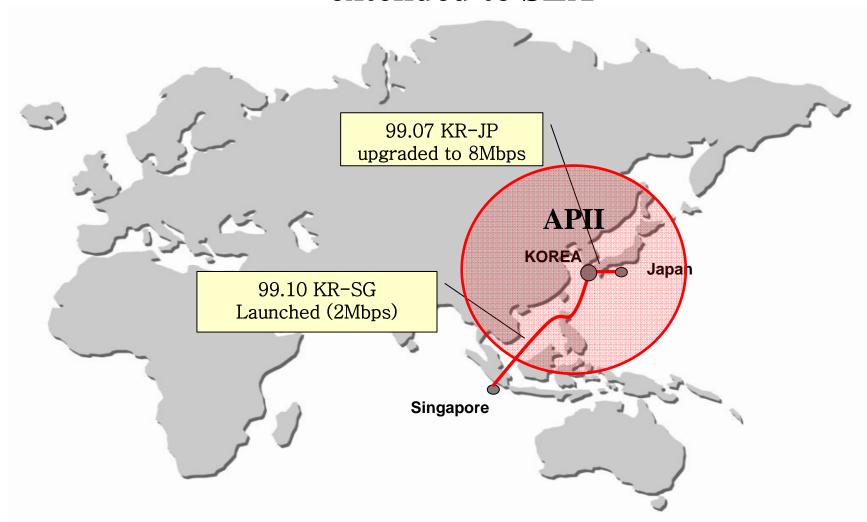

R&A: RSVP Back-bone, Multicast, Caching, Real-time VLBI, Measurement of Performance, Telemedicine, Tele-cinference, ATM Performance, GEO-Giga Net ...

APII KR-JP, APII KR-SG (1999-2000) extended to SEA

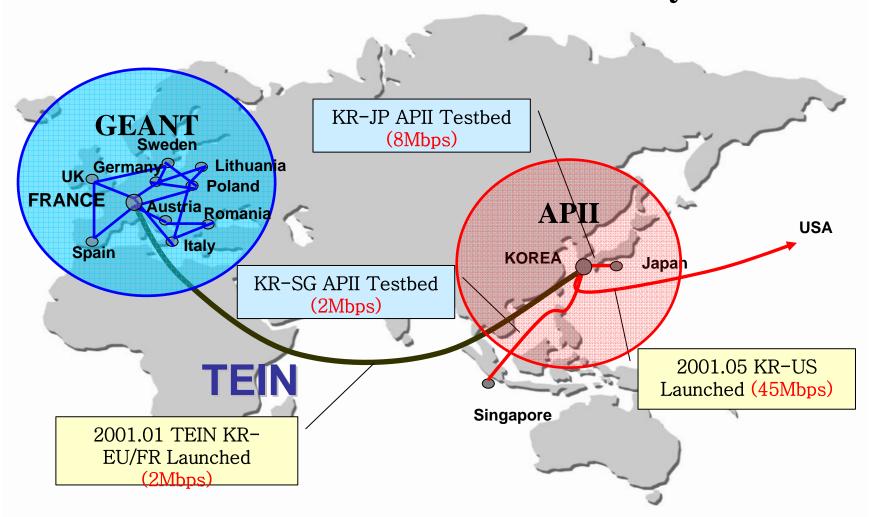

• IPv6, Virtual Univ., digital video transmission, Bio, Multicast, High quality video conference, telemedicine, Broadband CDMA, RSVP, ATM, Maritime application ···

APII KR-US, TEIN KR-EU (2001-2002) inter-continental connectivity

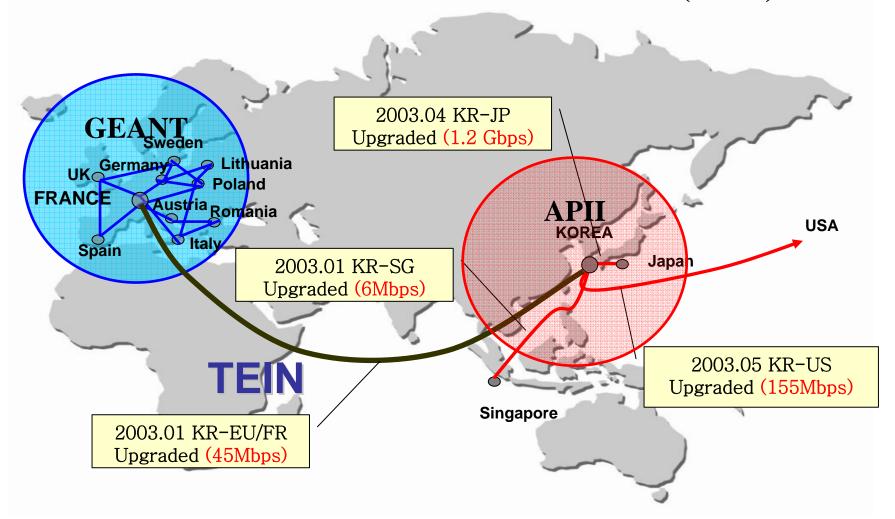

• IPv6, HEP, distance learning, HEP, Multicast, VoIP, Disaster Prevention, Traffic Engineering, telemedicine, Articficial Heart, Weather Forecas, Bio ...

APII/TEIN Expanded, Upgraded & Linked with Global Initiatives (2003)

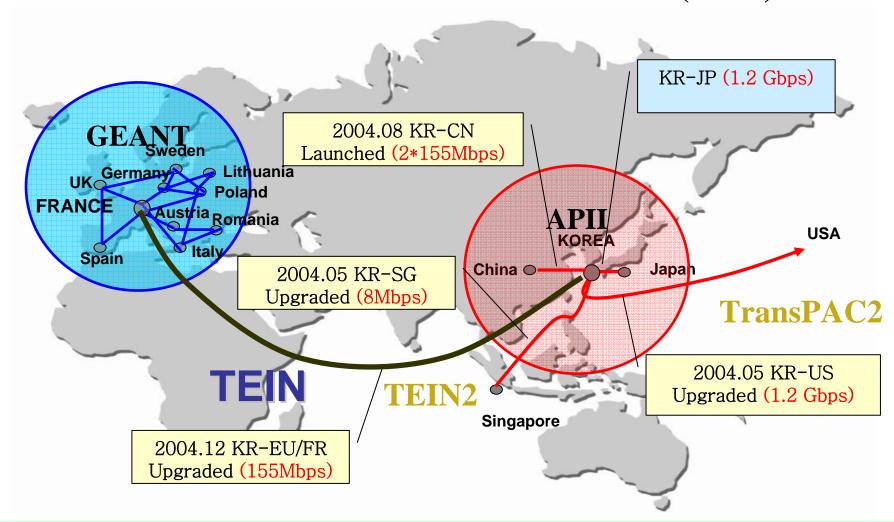

• R&A: Nano, IPv6, tele-medicine, earth-environment, Traffic Engineering, Disaster Prevention, Bio-data ...

- R&A: Nano, IPv6, tele-medicine, earth-environment, Traffic Engineering, Disaster Prevention, Bio-data ...
- Compose Working Groups for the areas of: Advanced Network, Access Grid, IPv6, Traffic Measurement, Physics, Medical Science, Earth System ...

Mission of APIICC: as given since 1995

Purpose +	Mission +
Promote the construction of Asia Pacific Information Infrastructure (Mission 2) to realize continuous development and co- prosperity in APEC (Mission 1)	(1) Promote Cooperation @ APECTEL & APEC +
Improve the interconnectivity and the inter- operability of pilot networks and testbeds in the region (Mission 2)	(2) Establish & Expand Intra-Regional Connectivity: APII Testbed Links
Improve the interconnectivity and the inter- operability of pilot networks and testbeds in the other region (Mission 2+)	(2+) Initiate & Strengthen Inter-Regional Connectivity: TEIN & TEIN2 Links (EC) IRNC (NSF, US)
Promote and support joint research and application on the APII Links (Mission3) And also on the connected links of other region (Mission 3+)	(3) Promote & Facilitate Joint R&D: Intra-regional R&A on the Links Inter-regional R&A on the Links

Action Items of APIICC: expanded to better meet AP demand

Mission	Action Item
Promote Cooperation for common prosperity @ APECTEL & APEC +	 Support for Chairing Group & POCs of TEL Maintain APEC TEL, APIICC Website IT Cooperation with ASEAN+3, ASEM-Asia Community
Establish & Expand Intra-Regional Connectivity: APII Testbed Links	- KR-JP (NICT, JP) - KR-CN (CERNET, CN) - KR-SG (SingAREN, SG) * - KR-US (PNWGP, StarLight, CA*Net4)
Initiate & Strengthen Inter-Regional Connectivity: TEIN & TEIN2 Links (EC) IRNC (NSF, US)	- TEIN KR-FR + GEANT(EU) - TEIN2 ASEM Asia + GEANT/GEANT2(EU) * - IRNC (APAN + NSF, Indiana U, Internet2, US) *
Promote & Facilitate Joint R&D: Intra-regional R&A on the Links Inter-regional R&A on the Links	 - Joint Projects Utilizing APII/TEIN, APAN - Working Groups (IPv6, Disaster, Medical) - APII KR-JP Workshops, CJK Collaboration - Asian DHX Forum

Joint R&A Projects

- Study on the construction of weather and climate change data exchange system between Korea and Europe
- One-way End-to-End Packet Delay Measurement for IPv6 Application in TEIN
- Study on Simulation of Nano-Scale Transister Using the TEIN Network
- Intercontinental research of advanced network & culture technology on TEIN/APII

Working Groups

- Physics WG (HEP, Fusion, ..)
- Advanced Network WG (IPv6, Security, International collaboration..)
- Medical Science WG (telemedicine...)
- Video Conferencing WG (Access Grid, HDTV..)
- E-learning (Medical) WG

Asian DHX Forum 2004

Next Asian DHX
Forum will be held in
Seoul on Sep 6, 2005
during APECTEL WG
meeting in Seoul.

Digital Heritage Exchange: HDTV over IP

What

• HDTV demonstration between KR,ES,US

When

• Early September during ITU Telecom ASIA 2004 (@Busan BEXCO, KR)

Partners

 ANF, GIST, KISDI, KISTI (KR), Washington Univ., ResearchChannel(US), UPC(ES)

Links

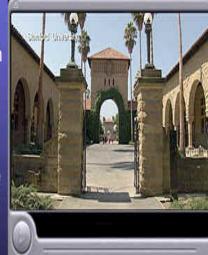

• KR-US: BEXCO-ResearchChannel

KR-ES: BEXCO-UPC

University of Washington Campus

Tour the University of Washington campus with the detail and clarity of High Definition Television footage.

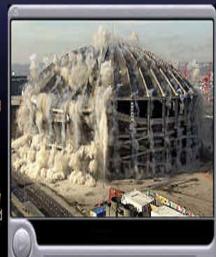

Stanford University Campus

Tour the Stanford University campus with the detail and clarity of High Definition Television footage

Sagrada Familia Church

The most visited building in Barcelona which, undoubtedly, identifies the city around the world is the Sagrada Familia designed by

Seattle's Kingdome Demolition Implosion

This High Definition Television footage captures the implosion that leveled the dome in 16.8 seconds.

APII Workshop 2004

- Time & Place : 2004.10.28-29 @ NICT
 - Co-hosted by NICT & KISDI
- Participants & program:
 - MIC-JP & MIC-KR; NICT & KISDI
 - Widening participants: CJK & SEA countries

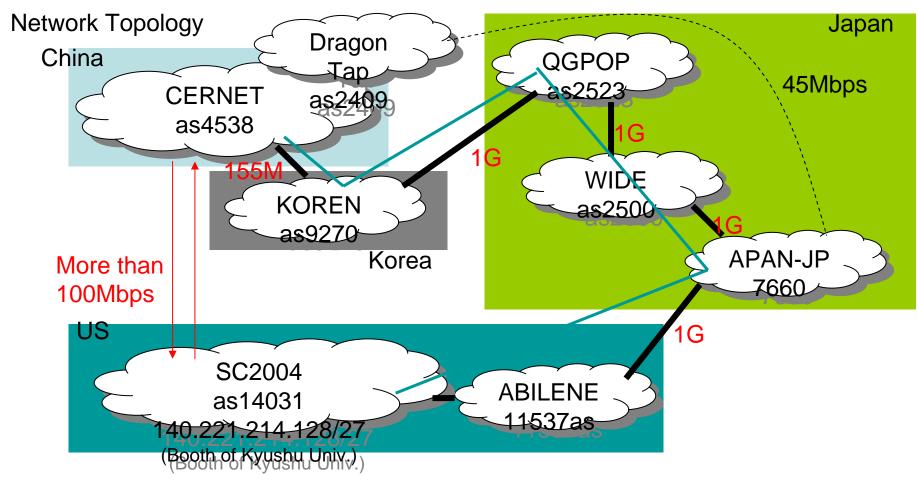

SC2004 Challenge Award

- Where: Nov 2004 @ SC 2004 conference (Pittsburgh, US)
- Title: CJK Bandwidth Challenge Award
- Awardees: CERNET(CN), Kyushu Univ(JP), KISDI(KR)
- Reason: showing bandwidth to CJK

TEIN2 Meeting @ CN, TH, SG, KR (Sep 04–May 05)

Participation: Asian ASEM members + EU + ...

Event & Task 2005

- Promotion & expansion of Joint R&A
 - Policy notice on utilization of backbone links of prime stakeholders
- APII Workshop 2005
 - Organization com. & program com. b/w NICT & KISDI
 - 5-6 Sept 2005, Seoul
- Asian DHX Forum 2005
 - Organization com. & program com.
 - 6 Sept 2005, Seoul

New Phase of APII/TEIN in cooperation with Global Links

Previous Focus

Establishment & expansion of intra-regional connectivity

Future Direction

Both, intra-regional & inter-regional

Develop & Promote joint R&A efforts, utilizing APII Links & global Links connected to APII

Collaboration for Common Prosperity

Strengthen and Cooperate Linked Initiatives: APII, TEIN/TEIN2 & IRNC

New Phase of APII/TEIN in cooperation with Global Links

North Asia: C-J-K Connectivity

APII KR-JP: 1.2 Gbps (-> 10 Gbps)

APII KR-CN: 155 Mbps (-> 622Mbps ~ 2.5Gbps -> 10 Gbps)

N. Asia-S.E. Asia Connectivity

TEIN2 Intra-Asia Connectivity:45Mbps~622Mbps(or 2.5Gbps)

Participants: (CN, MY, ID, TH, VN, PH), (KR, JP, SG),..APAN

N. Asia - EU, N. America Connectivity

APII KR-US: 1.2 Gbps

TEIN2 (Asia-Europe): 622 Mbps or 2.5 Gbps

Thanks!!
