

LCG Service Co-ordination Meeting 05/Oct/2005

Present: Jamie Shiers (chair), Tim Bell (secretary), Olof Barring, Maria Dimou, James Casey, Tony Cass, Romain Wartel, Dirk Duellman, Andrea Sciaba, Patricia Mendez, Alberto Aimar

Introduction

Jamie introduced the scope of the LCGSCM. Meetings are planned for every two weeks to co-ordinate the set up of the CERN services for LCG. Additional meetings/visits regarding Tier 1&2 sites and technical workshops will also take place.

The term WLCG service (for worldwide LCG) will be used since, on completion, Service Challenge 4 will become the production service.

The LCGSCM will report to the PEB and receive inputs from the various task forces.

A mailing list lcg-service-coordination-meeting@cern.ch has been set up for broadcast communications.

Reporting and Tracking

Tim presented how the status reporting for each area should be made and the status dashboard providing a single page view.

Status Review

No status review was performed this meeting as it was the first.

Actions

- Tim to review with James for consistency between the operations task list for WLCG setup and the Grid Operations workshop.
- Jamie to define the 'Area Responsible' for Deployment, WMS, DMS, IS and AAS

AOB

- Next meeting is scheduled for 18th October 10:00.
