

FTS Workshop Aims

FTS Workshop

16 November 2005

Gavin McCance
IT/GD, CERN

Aim of workshop

- Aim is to collect the experiences gained so far
 - Get feedback from the experiments
 - How is it being used?
 - What is your experience of it so far?
 - What are the issues?
- Define the near/mid-term work-plan
 - What doesn't work right?
 - What limitations are there?
 - What features are missing?
- Discuss some of the technical issues
 - How should XXXXX work?

Plan for workshop

- **Morning**
 - Experience from the experiments
 - Highlight software / service issues

 - Collect issues for discussion in afternoon

- **Afternoon**
 - Presentation / questions on VO-agent framework
 - Summary of issues
 - Discussion of technical points
 - Plans and priorities
