e-Research at Cardiff

John Oliver

**Commercial Coordinator
Welsh e-Science Centre**

Synopsis

- Grid & Benefits
- Welsh e-Science Centre – Aims
- WeSC Competence & Unique Assets
- Local Initiatives

“The Grid is tomorrow’s Internet”

“A powerful new ICT Infrastructure enables sharing of raw computing power and resources, including data, instruments, sensors and visualisation over networks.”

Grid Benefits

- Collaborative Working
 - increasing in science/engineering projects
 - face-to-face remote communicationAccess Grid
- Knowledge Management
 - Data ► Information ► Knowledge
 - Scalability

Grid Benefits

- **Service Oriented Approach**
 - Pay-as-you-go, electrical power analogy
 - Choice of services
 - Access to specialist services – lower cost
- **Problem Solving Environments**
 - Work benches/toolsets for problems of a specific order

WeSC Aims

- Promote Grid R & D in Wales
- Encourage technology exploitation
- Pursue research – 3 areas

Aims - Promotion of R & D

Aims - Technology Exploitation

- **Education**
 - Training Courses
 - Literature
 - Expertise
- **Partnerships ► Joint Projects ► Win-Win**
 - Industrial/Academic
- **People**
 - > 40 experts/technologists at Cardiff

Aims – Promote Research

- Data knowledge management
 - diverse resources
- PSE's
 - Science/engineering
- Distributed Visualization
 - Immersive/collaborative

WeSC Competence

- **Highly skilled/respected people**
 - >40 research/teaching
- **Track record**
 - 30 successful collaborative projects
 - 6 industrial partnerships

Unique Assets

- **Grid Test Bed** — used to test Grid middleware
- **Cardiff University Distributed Visualization Facility**
 - multi processors
 - high end Graphics (inc 3D)
 - high speed/bandwidth network at CU
- **High capacity Grid storage and search facility**
 - 4 TB flexible storage
 - advanced data pattern matching facility
 - first installation in world

Company Links

Industrial Projects

- BT Exact
- BAE Systems
- HP
- SGI
- Activeplan
- Avantis World
- Sea Marine Engineering
- Evotec

Others

- IBM
- Zarlink Semiconductors
- Smart Holograms

International Partners/Links

- **Industrial Projects**

- GECCEM – Institute of HPC, Singapore
- RAVE – Oakridge Lab, Tennessee

- **Others**

- NIMROD – Monash University, Australia
- Prof Alec Gray – Global Biodiversity Information Facility

Welsh e-Science Projects

30+ in progress

- Applications,
- Industrial Partnerships
- Middlewares
- Tools

Applications

- **Biodiversity World** — Reading, Soton Nat Hist Museum
PSE for collaborative exploration and analysis of global biodiversity patterns
- **RT Grid** - Velindre Cancer Care Centre
Radiotherapy dose calculation – Monte Carlo techniques
- **e-HTPX** — Daresbury/Oxford/York/Cambridge/EBI
Resource for High Throughput Protein Crystallography

Industrial Partnerships

- **CONOISE-G** - BT Exact, Soton, Aberdeen
A distributed environment in which multi-agents provide diverse services
- **GECEM** – BAE Systems, HP, IHPC, Swansea
Grid-Enabled Computational Electromagnetics
- **RAVE** - SGI
Resource Aware Visualisation Environment

Middlewares

- **Access Grid VRE** - **Manchester, Soton, Edinburgh, OU**

Videoconferencing - services for meeting co-ordination & replay

- **UDDI- e - Cardiff**

An extended registry for web services

- **MANGO** — **Cardiff**

Messaging and Notifications for Grid Organisations

Tools

- **Triana** Cardiff
Graphical environment to create programs
- **JACAW** Cardiff
Java-C Automatic Wrapping
- **SWFL** Cardiff
Service Workflow Language - Scientific

Summary
