Database Readiness Workshop

Report of Contributions

Contribution ID: **1** Type: **not specified**

CERN Database Service Update

Monday, 6 February 2006 09:15 (20 minutes)

Primary author: MARIA GIRONE

Presenter: MARIA GIRONE

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **2** Type: **not specified**

RAL Production Setup

Monday, 6 February 2006 11:35 (20 minutes)

Primary author: GORDON BROWN

Presenter: GORDON BROWN

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **3**   Type: **not specified**

CNAF Production Setup

Monday, 6 February 2006 09:55 (20 minutes)

Primary author: BARBARA MARTELLI

Presenter: BARBARA MARTELLI

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **4** Type: **not specified**

GridKA Production Setup

Monday, 6 February 2006 10:45 (20 minutes)

Primary author: ANDREAS HEISS

Presenter: ANDREAS HEISS

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **5** Type: **not specified**

IN2P3 Production Setup

Monday, 6 February 2006 11:05 (20 minutes)

Primary author: PIERRE-ETIENNE MACCHI

Presenter: PIERRE-ETIENNE MACCHI

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **6**   Type: **not specified**

Site planning discussion

Monday, 6 February 2006 11:55 (20 minutes)

Topics for Discussion

- DBA technical meeting - 1-2 days after CHEP at RAL?
- Participation of remaining Tier 1 sites
- required by experiments?
- realistic with existing site resources?
- Oracle server kits
- distribution via CERN or direct from Oracle?
- CERN installation kits or direct use of Oracle installer?
- Oracle support contact/contract?
- SQUID support at Tier 1s - DBA or site admin team?
- 3D meeting structure
- more alignment with SC4 meetings or regular reports in both directions?

Presenter: ALL

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **7**　　　　　　　　　　　　　　　　　Type: **not specified**

Intro & Goals

Monday, 6 February 2006 09:00 (15 minutes)

Primary author:　DIRK DUELLMANN

Presenter:　DIRK DUELLMANN

Session Classification:　Production Database Setup at Tier 0 and 1

Contribution ID: **8** Type: **not specified**

T0 Preparations for Streams and Frontier

Monday, 6 February 2006 09:35 (20 minutes)

Primary author: EVA DAFONTE PEREZ, LUIS RAMOS

Presenter: EVA DAFONTE PEREZ, LUIS RAMOS

Session Classification: Production Database Setup at Tier 0 and 1

Contribution ID: **9** Type: **not specified**

CMS Database Software Status

Monday, 6 February 2006 14:00 (30 minutes)

Primary author: ZHEN XIE

Presenter: ZHEN XIE

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **10**
Type: **not specified**

BNL Production Service Setup

Monday, 6 February 2006 16:30 (20 minutes)

Primary author: YINGZI(IRIS) WU , YURI SMIRNOV

Presenter: YINGZI(IRIS) WU , YURI SMIRNOV

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **11** Type: **not specified**

ATLAS Database Software Status

Monday, 6 February 2006 14:30 (30 minutes)

Primary author: ALEXANDRE VANIACHINE

Presenter: ALEXANDRE VANIACHINE

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **12** Type: **not specified**

LHCb Database Software Status

Monday, 6 February 2006 15:00 (30 minutes)

Primary author: MARCO CLEMENCIC

Presenter: MARCO CLEMENCIC

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **13** Type: **not specified**

ALICE Database Software Status

Monday, 6 February 2006 16:00 (30 minutes)

Primary author: LATCHEZAR BETEV

Presenter: LATCHEZAR BETEV

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **14**   Type: **not specified**

Experiment planning discussion

Monday, 6 February 2006 17:00 (20 minutes)

- Experiment validation of production setup
- Service list and application schedule for T0/T1
- next workshop - only after some month of significant service use

Primary author: ALL

Presenter: ALL

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **15**   Type: **not specified**

Summary & Conclusions

Monday, 6 February 2006 17:20 (15 minutes)

Primary author: DIRK DUELLMANN

Presenter: DIRK DUELLMANN

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans

Contribution ID: **16** Type: **not specified**

FroNTier and Squid caching

Monday, 6 February 2006 15:30 (30 minutes)

Primary author: LEE LUEKING

Presenter: LEE LUEKING

Session Classification: Online/Offline Software Integration Status, Deployment Test Results and Production Plans
