Procedures and good practice

Enabling Grids for E-sciencE

- Running training courses takes a lot of effort and time!!!
- Knowing the technology is just the start!
- Lots of administrative tasks required
 - Arranging facilities/resources/speakers
 - Advertising
 - Registration procedures
 - Accommodation/catering/logistics
- Preparation of course materials
 - Drafting agenda
 - Presentations
 - Printed material handouts/slide notes/tutorial sheets ???
 - Practical sessions

M1-4 Milestones for NA3

Enabling Grids for E-sciencE

•	MNA3.1.1	Training plan	M1	√
•	MNA3.2.1	e-learning plan	M2	\checkmark
•	MNA3.3.1	t-infrastructure plan	M3	
•	MNA3.4.1	Virtual organisation and external project support plan	M 4	

Training plan:

https://edms.cern.ch/file/743293/1/EGEE-II-MNA3.1.1-743293-v5.0.doc

e-Learning plan:

https://edms.cern.ch/file/743303/1/EGEE-II-MNA3.2.1-743303-v3.0.doc

Training Plan - objectives

- To expand the EGEE portfolio of training material and courses,
 - for EGEE partners
 - to provide material for related Grid projects.
- To use this material to train a wide variety of users,
 - internal to the EGEE consortium
 - from the external user groups across Europe who will make use of the EGEE-II infrastructure.
- To develop material for "how to train users" events
 - effective mechanism for passing on knowledge to end-users of Grid-related projects.

Training Plan - objectives

- To enhance the
 - e-Learning services
 - t-Infrastructure provision
 - addressing the issues of scaling
 - expanded project
 - larger user-base.
- To validate certified EGEE trainers and compile a trainers directory.
- To collaborate with other activities to ensure that the EGEE-II team spirit is maintained.

e-Learning Plan: objectives

- **Develop an e-Learning environment** to provide a training resource which
 - is ubiquitous
 - is continuously available
 - supports a variety of levels and modes of study
- Implement an e-Learning framework with
 - a service-oriented architecture, so that localised clients and services can be created at any level within the project.
- **Develop new, non-event-based content** to focus on subjects of particular interest to Grid users, e.g.
 - certification
 - middleware configuration.
- Implement methods for tracking usage of e-Learning material.

NA3 support for partners

What we can do to support partners in NA3:

- ETF material
- Use and update digital library
- Advertising
- NA3 documentation/registration
- Co-ordinate feedback gathering
- Formal reporting mechanisms

EGEE-I Documents

Running a training event:

https://edms.cern.ch/file/475028/1/EGEE-NA3-TEC-475028-RunningAnEvent.doc

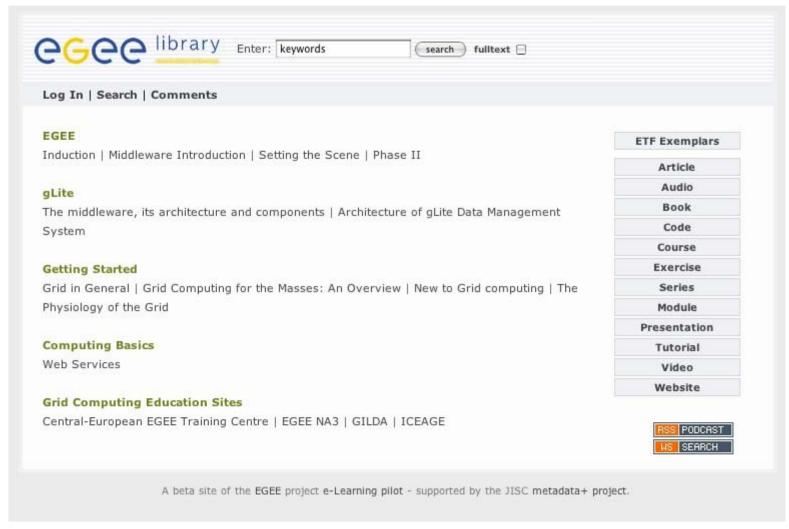

Preparing an Event:

https://edms.cern.ch/file/475027/1/EGEE-NA3-TEC-475027-PreparingAndManagingEvents-v0-1.doc

eLearning – Digital Library

Enabling Grids for E-sciencE

http://egee.lib.ed.ac.uk/

e-Learning statistics

Enabling Grids for E-sciencE

ETF	Exemplars
- 1	Article
	Audio
	Book
	Code
	Course
- 1	Exercise
	Series
į	Module
Pro	esentation
- 3	Tutorial
	Video
	Website

- 70 articles specific to EGEE ICEAGE repository has 535
- 7 courses
- 8 exercises
- 37 modules
- 2559 presentations
- 35 tutorials
- 82 videos

•EGEE digital library: http://egee.lib.ed.ac.uk/

Registration services

- Provides a central point for input and formatting of event details, agenda, registration
- Maintains a database of all events with links to course materials and feedback data

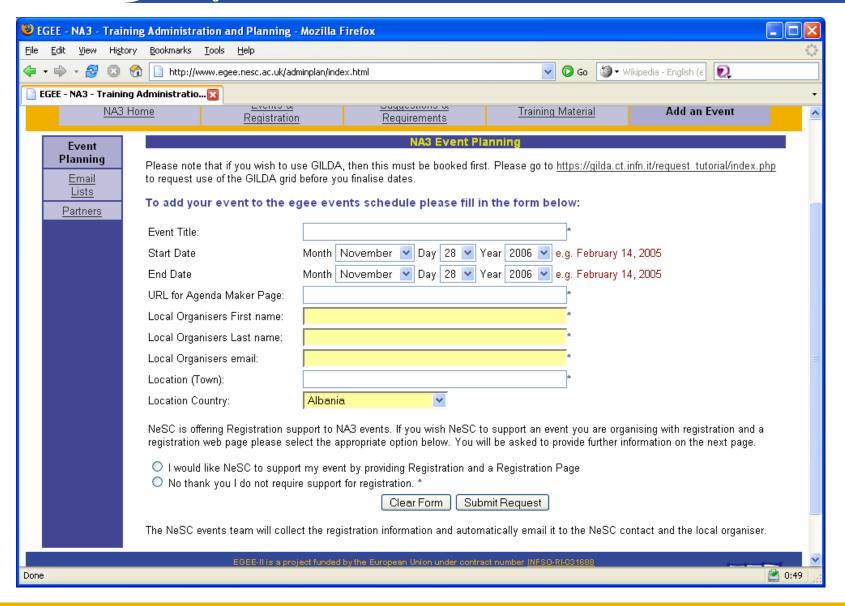

Registration Form:

http://www.egee.nesc.ac.uk/adminplan/index.html

Registration Page

Enabling Grids for E-sciencE

Registration Data

- Event title, date and venue
- Event organizer name and e-mail
- Registration start and close dates
- Respond-by date the date by which the organizer will have responded to the applicant with a decision as to whether the applicant is accepted for the event
- URL of the AgendaMaker entry for the event

Events database

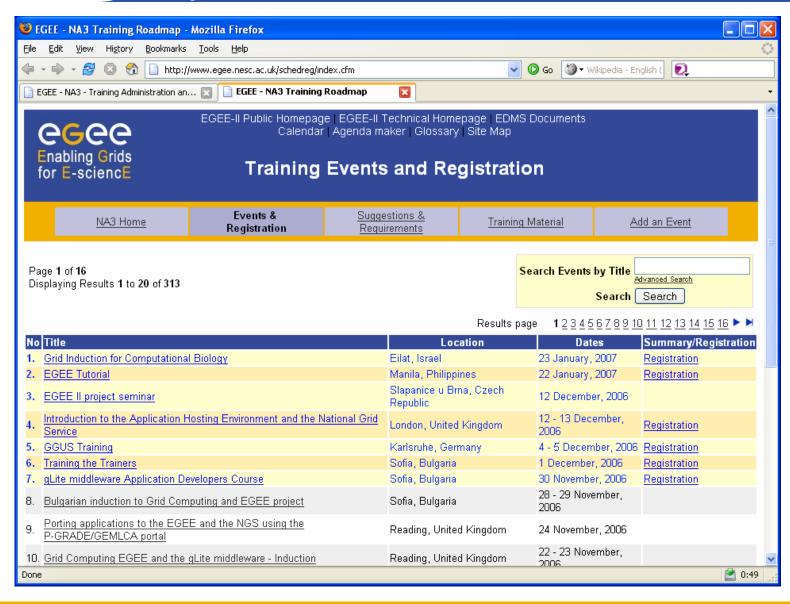

- Past /present/ future events with agenda and links to course materials/ feedback summaries.
- Includes historical course material
- ETF Exemplars highlighted in digital library

http://www.egee.nesc.ac.uk/schedreg/index.cfm

Events Databse

Enabling Grids for E-sciencE

Checklists

Checklist for training event management:

- Financial arrangements
- T-Infrastructure
- Agenda page
- Capacity
- Trainers required
- Goals, pre-requisites, expectations
- Logistics

Checklists

Checklist for local event organisers:

- Agree goals
- Plan advertising
- Arrange internet access
- Local web page?
- Numbers limit capacity of room
- Identify trainers
- Disability-related requirements

EGEE-II Project Metrics

Draft Partner Metrics Document:

https://edms.cern.ch/file/715240/1/EGEE-II-JRA2-TEC-715240-PartnerMetrics-v1-3.doc

Project Quality Plan:

https://edms.cern.ch/file/732399/4/EGEE-II-DJRA2.1.1-732399-QualityPlan-v1-6.doc

Course & Event Delivery

Total number of events delivered

Total number of event-participant-days delivered

Course & Event Quality

Average participant rating on "overall evaluation"

T-Infrastructure (technology used in an event - not the repository)

Number of events involving use of T-infrastructure

Number of tutorials developed for the T-infrastructure

Red = both a partner and an activity metric (otherwise just activity)

19

NA3 Partner/Activity Metrics (2)

Enabling Grids for E-sciencE

Training Repository (Digital Library)

Number of Learning Objects placed in the repository

Number of downloads of Learning Objects

Number of declared re-uses of LOs outside NA3

Number of declared re-uses of LOs outside EGEE

Number of instances of a LO translation

Number of deliveries of a LO in other than its source language

Number of languages for which there is at least one LO in that language

Number of LOs in other than English

Red = both a partner and an activity metric (otherwise just activity)

NA3 Partner/Activity Metrics (3)

Enabling Grids for E-sciencE

Collaboration - within NA3

Number of instances of one/this partner significantly contributing to / supporting another's event

Number of events involving significant cross-partner collaboration

Collaboration - outwith NA3, within EGEE

Number of QAG meetings attended

Number of (own) events involving significant cross-activity collaboration

Collaboration - outwith EGEE

Number of (own) events requiring involving collaboration with other projects/organisations

Red = both a partner and an activity metric (otherwise just activity)

EGEE Forms

- Feed-back Form
- Attendance
- Gender
- Summary

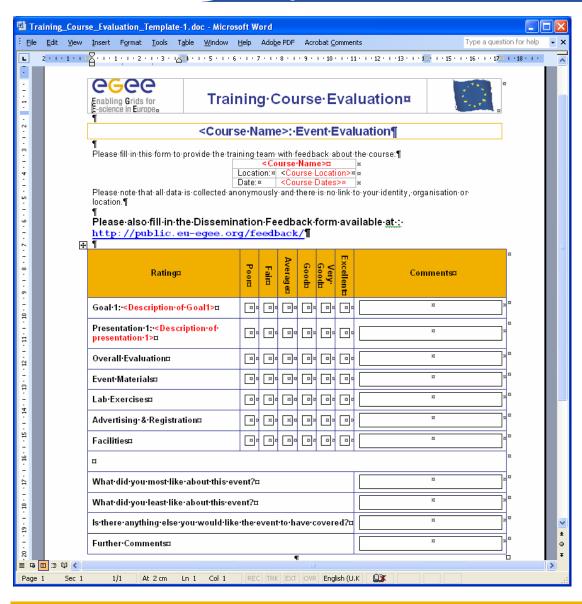

- Feedback is vital for continued project support/funding
- Standardised feedback forms simplify data analysis
- Web-based feedback doesn't work zero returns!
- Paper forms far more effective and provide audit trail

"If you can't show feedback, you didn't do it"

Feed-back Form

Enabling Grids for E-sciencE

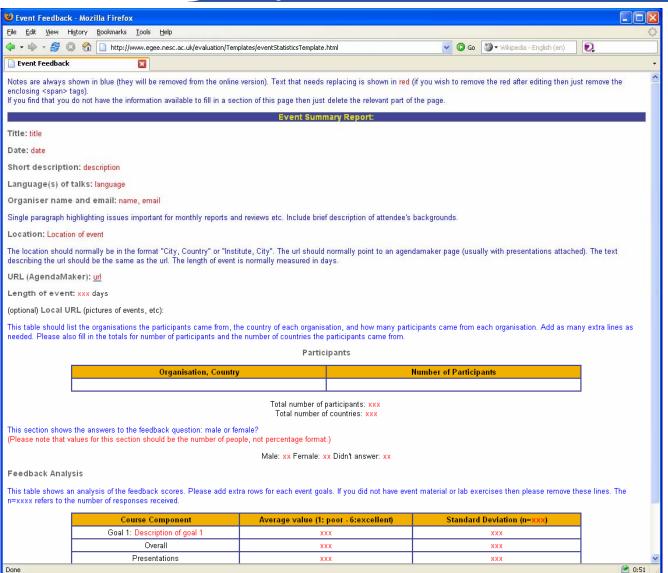

- Goals
 - get them right
- Individual items
 - presentation
 - tutorial
- General
 - OVERALL
 - materials
 - exercises
 - advertising / registration
 - facilities

Summary Form

Enabling Grids for E-sciencE

Counts

- participants
- countries
- Statistical for each evaluation form item
 - average
 - std. dev.

What can go wrong?

Why is the event being created?

 Risk: That the training event is for an imagined, rather than real, need, and thus will be too poorly attended to justify the resources expended on the event.

• Who is it for?

 Risk: That the detailed preparation will be impossible without a clear picture of the intended audience.

What are the intended learning outcomes?

 Risk: That the content will not be sufficiently focussed on the actual objectives of the event.

What can go wrong (2)?

- What is the range of backgrounds and relevant knowledge bases of the anticipated clients?
 - Risk: That the style and approach will be unsuitable for some clients.
 - Risk: That the content will be too difficult for some clients and/or insufficiently interesting/challenging for other clients.
- How will the nature of the event be communicated to potential clients?
 - Risk: if that communication is not clear and precise, then there may be clients with expectations which are not matched by the event, or potential clients who would have benefited but were not able to recognise this.

NA3 Procedures 1st December 2006

What can go wrong (3)?

- What is the duration of the event?
 - Risk: the event is too short to effectively cover the intended material
 - Risk: the event is too long for people to be able to afford the time to come
- Who is going to pay, for which aspects of the event, and from what funding sources?
 - If this is not clear from the beginning, there may be problems, e.g.
 - resentment
 - a speaker cancelling at the last minute on discovery that (s)he is expected to pay for travel and accommodation.
 - If there is a registration fee, this may deter some clients from attending

Discussion

EGEE-II INFSO-RI-031688 NA3 Procedures 1st December 2006 29
