- **Rolf Rumler :**
 - ROC manager
 - OAG co-chairperson
- **Hélène Cordier :**
 - ROC deputy (operations and procedures, standardization bodies)
 - OAG deputy
- **Pierre Girard :**
 - ROC deputy (regional deployment, support and operations)
 - ROC support staff
 - EGEE trainer
- **Gilles Mathieu :**
 - CIC portal coordination
 - OAG deputy
 - EGEE trainer
- **Osman Aidel**
 - CIC portal development
- **Frédéric Schaer, Cyril L'Orphelin**
 - Regional accounting coordination
 - CIC on-duty
 - ROC support staff
 - EGEE trainer
- **Nadia Lajili, David Bouvet, Jonathan Schaeffer**
 - CIC on-duty
 - ROC support staff
 - EGEE trainer

- **Local helpdesk application is obsolete**
 - Found inadequate for new requirements of ROC and for interfacing with GGUS
 - Ongoing discussion to move to another tool (XOOPS? Attendance to XOOPS tutorial in Torino)
- **ROC support is achieved by directly using the GGUS portal**
 - ROC assigns GGUS ticket to the concerned site support
 - Site support staff is asked to register as ROC support staff in GGUS when dealing with the first ticket
 - ROC support is informed of any ticket update and interacts when needed
 - Site Unit Support in GGUS ?
- **Use of a specific mailbox: grid-roc@cc.in2p3.fr**
 - 4 potential readers: David Bouvet, Frédéric Schaer, Rolf Rumler, Pierre Girard
 - First reader deals with the ticket by directly answering and/or by forwarding to someone supposed more expert
- **Dedicated support for LHC VOs**
 - Local VO contacts aware of ongoing VO activities/events
 - Dedicated mailing lists

- **Alice**
- **Atlas**
- **Auvergrid (regional)**
- **Biomed**
- **Cdf**
- **Cms**
- **Dteam**
- **Dzero**

- **Hone**
- **Lhcb**
- **Virgo**

- **Storage**

- Disk: ~32 TB (Classic SE, DPM SE, Dcache SE)
- Tape: ~1,2 PB (HPSS)

- **Open Issues**
 - ROC support
 - Push out configuration data from YAIM package to make them available to sites using other configuration tool (Quattor)
 - SL4
- **Ongoing Work**
 - CIC website in general
 - OAG in general
 - Participation in VO Boxes group (C. Loomis)
 - InGrid: virtual grid testbed (using virtual machine technology)
 - ... and daily operations etc.
